OLUWAFEMI AJAYI

Software Engineer · Full-Stack Developer · Digital Marketing

Akure, Nigeria · codedbyfemi@gmail.com · github.com/oluwafemi667 · linkedin.com/in/oluwafemi-ajayi-bb95713bb

PROFESSIONAL SUMMARY

Software Engineering student at FUTA with practical experience delivering full-stack, AI-integrated web applications and workflow automation — including two solo hackathon projects, PayFlow AI and MamaSpace (the latter recognized at the HelpMum Carecode Hackathon). Brings a complementary background in digital marketing and freelance web development.

EDUCATION

B.Tech, Software Engineering

2022 – Present

Federal University of Technology, Akure (FUTA) · Akure, Nigeria

- Current Level: 300 | Specialisation: Software Engineering | Coursework: Data Structures & Algorithms, Discrete Mathematics, Computer Architecture, Operating Systems, Software Requirements Engineering, C Programming

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, C
Frameworks	Next.js 14, React, Tailwind CSS, Node.js
Backend / DB	Supabase (PostgreSQL), REST APIs, Supabase Auth, Google OAuth
AI & APIs	Google Gemini API, Anthropic Claude API, LLM integration, prompt engineering
DevOps & Tools	Vercel, Git & GitHub, VS Code, Lovable
Automation	Zapier, no-code workflow design
Marketing	SEO, content strategy, client outreach, reputation management

PROJECTS

PayFlow AI — AI-Powered Invoicing & Payment Platform

2026

DevCareer x Nomba Hackathon 2026

- Sole developer of a full-stack invoicing tool built with Next.js 14, Supabase, and Gemini 2.5 Flash, deployed on Vercel
- Integrated the Nomba Checkout API end-to-end, including OAuth2 auth and HMAC-SHA256 webhook verification
- Built natural-language invoice parsing, shareable invoice pages with PDF export, and a 7-day revenue chart
- Diagnosed a platform-side webhook issue, built a fallback payment-status check, and fixed two live API integration bugs

MamaSpace — AI-Powered Maternal Wellness Platform

2025

HelpMum Carecode Hackathon, 2nd Edition

- Sole developer of a full-stack maternal wellness web app built with Next.js 14, Supabase, Tailwind CSS, and the Gemini API, deployed on Vercel
- Engineered an AI wellness chatbot ('Mama') with multilingual support, context-aware responses, and Nigerian crisis resource integration
- Implemented EPDS postnatal depression screening, mood logging, and a personalized dashboard, with end-to-end auth (Supabase + Google OAuth) and a fully responsive interface

Client Inquiry Automation System

2025

Freelance / Personal Project

- Designed a no-code automation pipeline using Zapier: contact form → Google Sheets (CRM logging) → Gmail (instant reply)
- Reduced manual client follow-up time significantly; template reused across multiple freelance engagements

EXPERIENCE

Freelance Web Developer

2024 – Present

Self-Employed · Remote

- Design and develop responsive websites for small businesses, from initial scoping through to deployment
- Manage client acquisition and outreach, and automate post-project workflows using no-code tools

ADDITIONAL

- Languages: English (fluent) · Yoruba (fluent) · Spanish (intermediate) · French (beginner)
- Interests: creative writing, personal development, digital marketing, AI tooling · Community: Celo Developer Event attendee
